Sections

1. [Submission and Peer Review Process](#)
2. [Article Types](#)
3. [After Acceptance](#)

1. Submission and Peer Review Process

Once the submission materials have been prepared in accordance with the Author Guidelines, manuscripts should be submitted online at <https://authors.wiley.com/journal/JSAE>

For help with submissions, please contact: JSAE-editorialoffice@wiley.com

This journal does not charge submission fees.

Article Preparation Support

[Wiley Editing Services](#) offers expert help with English Language Editing, as well as translation, manuscript formatting, figure illustration, figure formatting, and graphical abstract design – so you can submit your manuscript with confidence.

Also, check out our resources for [Preparing Your Article](#) for general guidance about writing and preparing your manuscript.

Free Format Submission

The *Journal of Sustainable Agriculture and Environment* offers [Free Format submission](#) for a simplified and streamlined submission process.

Before you submit, you will need:

- Your manuscript: this should be an editable file including text, figures, and tables, or separate files—whichever you prefer. All required sections should be contained in your manuscript, including abstract, introduction, methods, results, and conclusions. Figures and tables should have legends. Figures should be uploaded in the highest resolution possible. References may be submitted in any style or format, as long as it is consistent throughout the manuscript. Supporting information should be submitted in separate files. If the manuscript, figures or tables are difficult for you to read, they will also be difficult for the editors and reviewers, and the

editorial office will send it back to you for revision. Your manuscript may also be sent back to you for revision if the quality of English language is poor.

- An ORCID iD, freely available at <https://orcid.org>. *(Why is this important? Your article, if accepted and published, will be attached to your ORCID profile. Institutions and funders are increasingly requiring authors to have ORCID iDs)*
- The title page of the manuscript, including:
 - Your co-author details, including affiliation and email address. *(Why is this important? We need to keep all co-authors informed of the outcome of the peer review process.)*
 - Statements relating to our ethics and integrity policies, which may include any of the following *(Why are these important? We need to uphold rigorous ethical standards for the research we consider for publication):*
 - data availability statement (for original research)
 - funding statement
 - conflict of interest disclosure
 - ethics approval statement
 - permission to reproduce material from other sources

To submit, login at <https://authors.wiley.com/journal/JSAE> and create a new submission. Follow the submission steps as required and submit the manuscript.

Open Access

This journal is a Gold Open Access title. Submissions will be subject to an Article Publication Charge (APC) if accepted and published in the journal. Find details on the journal's APCs [here](#). You can [read more about APCs](#) and whether you may be eligible for waivers or discounts, through your institution, funder, or a country waiver.

Preprint policy

Please find the Wiley preprint policy [here](#).

The *Journal of Sustainable Agriculture and Environment* will consider for review articles previously available as preprints. You are requested to update any pre-publication versions with a link to the final published article. You may also post the final published version of the article immediately after publication.

Data Sharing and Data Availability

This journal expects data sharing. Review [Wiley's Data Sharing policy](#) where you will be able to see and select the data availability statement that is right for your submission.

Nucleotide sequence data can be submitted in electronic form to any of the major collaborative databases, for example:

- DNA Data Bank of Japan (DDBJ): www.ddbj.nig.ac.jp
- EMBL Nucleotide Archive: ebi.ac.uk/ena
- GenBank: www.ncbi.nlm.nih.gov/genbank

Proteins sequence data should be submitted to either of the following repositories:

- Protein Information Resource (PIR): pir.georgetown.edu
- SWISS-PROT: expasy.ch/sprot/sprot-top

Structural Data

For papers describing structural data, atomic coordinates and the associated experimental data should be deposited in the appropriate databank (see below). Please note that the data in databanks must be released, at the latest, upon publication of the article. We trust in the cooperation of our authors to ensure that atomic coordinates and experimental data are released on time.

- Organic and organometallic compounds: Crystallographic data should not be sent as Supporting Information, but should be deposited with the *Cambridge Crystallographic Data Centre* (CCDC) at ccdc.cam.ac.uk/services/structure%5Fdeposit
- Inorganic compounds: *Fachinformationszentrum Karlsruhe* (FIZ; fiz-karlsruhe.de).
- Proteins and nucleic acids: *Protein Data Bank* (rcsb.org/pdb)
- NMR spectroscopy data: *BioMagResBank* (bmr.b.wisc.edu)

Data Citation

Please review [Wiley's Data Citation policy](#).

Data Protection

By submitting a manuscript to or reviewing for this publication, your name, email address, and affiliation, and other contact details the publication might require, will be used for the regular operations of the publication. Please review [Wiley's Data Protection Policy](#) to learn more.

Funding

You should list all funding sources in the Acknowledgments section. You are responsible for the accuracy of their funder designation. If in doubt, please check the [Open Funder Registry](#) for the correct nomenclature.

Authorship

All listed authors should have contributed to the manuscript substantially and have agreed to the final submitted version. Review [editorial standards](#) and scroll down for a description of authorship criteria.

ORCID iD

This journal encourages the corresponding author to provide an ORCID iD at submission. Please refer to [Wiley's resources on ORCID](#).

Reproduction of Copyright Material

If excerpts from copyrighted works owned by third parties are included, credit must be shown in the contribution. It is your responsibility to also obtain written permission for reproduction from the copyright owners. For more information visit [Wiley's Copyright Terms & Conditions FAQ](#).

The corresponding author is responsible for obtaining written permission to reproduce the material "in print and other media" from the publisher of the original source, and for supplying Wiley with that permission upon submission.

Plagiarism Detection

The journal employs a plagiarism detection system. By submitting your manuscript to this journal you accept that your manuscript may be screened for plagiarism against previously published works.

Title Page

The title page should contain:

- i. A brief informative title containing the major key words. The title should not contain abbreviations (see [Wiley's best practice SEO tips](#))
- ii. The full names of the authors;
- iii. The author's institutional affiliations where the work was conducted, with a footnote for the author's present address if different from where the work was conducted;
- iv. Acknowledgments, including a funding statement and a conflict-of-interest disclosure statement (or a statement of no conflicts if appropriate).

Main Text File

The main text file should be in Word and include:

Manuscripts can be uploaded either as a single document (containing the main text, tables and figures), or with figures and tables provided as separate files. Should your manuscript reach revision stage, figures and tables must be provided as separate files. The main manuscript file can be submitted in Microsoft Word (.doc or .docx) format.

Your main document file should include:

- An abstract - structured (introduction/materials & methods/results/conclusion) for Research Articles or unstructured for Review Articles and Commentaries
- Up to five keywords;
- Main body: formatted for Research Articles as introduction, materials & methods, results, discussion, conclusion; Review Articles, Commentaries, Correspondence (Letter to the Editor) should use appropriate subheadings to provide clarity for the reader;
- References;
- Tables (each table complete with title and footnotes);
- Figure legends, supplied as a complete list in the text;
- All manuscripts must include line numbers.

Reference Style

All references should be numbered consecutively in order of appearance and should be as complete as possible; in-text citations should be superscript numbers (Vancouver [Style](#)). As the journal offers Free Format submission, however, this is for information only and you do not need to format the references in your article, this will be taken care of by the typesetter.

Spelling

The *Journal of Sustainable Agriculture and Environment* uses British spelling. Authors should follow the latest edition of the Collins English Dictionary.

Figures and Supporting Information

Figures, supporting information, and appendices should be supplied as separate files. You should review the [basic figure requirements](#) for manuscripts for peer review, as well as the more detailed post-acceptance figure requirements. View [Wiley's FAQs](#) on supporting information.

Species Names

Upon its first use in the title, abstract, and text, the common name of a species should be followed by the scientific name (genus, species, and authority) in parentheses. For well-known species, however, scientific names may be omitted from article titles. If no common name exists in English, only the scientific name should be used.

Genetic Nomenclature

Sequence variants should be described in the text and tables using both DNA and protein designations whenever appropriate. Sequence variant nomenclature must follow the current HGVS guidelines; see varnomen.hgvs.org, where examples of acceptable nomenclature are provided.

Peer Review

This journal operates under a single-anonymized [peer review model](#).

Papers will only be sent to review if the Editor-in-Chief and a Senior Editor determines that the paper meets the appropriate quality and relevance requirements. Except where otherwise stated, manuscripts are peer reviewed by at least two reviewers and an Editor.

In-house submissions, i.e. papers authored by Editors or Editorial Board Members, will be sent to Editors unaffiliated with the author or institution and monitored carefully to minimise peer review bias. A statement on how in-house submissions were managed during peer review will appear on the published article.

Wiley's policy on the confidentiality of the review process is [available here](#).

Submission implies no significant overlap between the submitted manuscript and other manuscripts by the same authors under consideration or in press elsewhere.

Refer and Transfer Program

Wiley believes that no valuable research should go unshared. This journal participates in Wiley's [Refer & Transfer program](#). If your manuscript is not accepted, you may receive a recommendation to transfer your manuscript to another suitable Wiley journal, either through a referral from the journal's editor or through our Transfer Desk Assistant.

Guidelines on Publishing and Research Ethics in Journal Articles

The journal requires that you include in the manuscript details institutional review board approvals, ethical treatment of human and animal research participants, and gathering of informed consent, as appropriate. You will be expected to declare all conflicts of interest, or none, on submission. Please review Wiley's policies surrounding [human studies](#), [animal studies](#), [clinical trial registration](#), [biosecurity](#), and [research reporting guidelines](#).

This journal follows the core practices of the [Committee on Publication Ethics \(COPE\)](#) and [handles cases of research and publication misconduct accordingly](#).

This journal uses iThenticate's CrossCheck software to detect instances of overlapping and similar text in submitted manuscripts.

Read [Wiley's Top 10 Publishing Ethics Tips for Authors](#) and [Wiley's Publication Ethics Guidelines](#).

2. Article Types

Article Type-	Description	Word Limit (main text)	Abstract / Structure	Other Requirements
Research Article	Reports new research findings or conceptual analyses that make a significant contribution to knowledge. Peer reviewed.	6000	Yes, (300 words) structured	Data Availability Statement Not more than 50 references Not more than 6 figures or tables in total
Review Article	Overview of developments in fields or the current lines of thought. Synthesise multiple sources of information, includes systematic reviews and meta-analyses. Peer reviewed.	6000	Yes, (300 words) unstructured	Not more than 50 references (references presented only as the result of literature searches and not cited in the body of the text should be provided as supplementary material) Not more than 6 figures or tables in total
Commentary	evidence-based opinion pieces involving areas of broad interest and invited commentaries. Peer reviewed.	2000	Yes, (200 words) unstructured	Not more than 25 references Not more than 2 figures or tables in total
Editorial	Convey an opinion, or overview of an issue, by the Editor or someone invited by the Editor. Peer reviewed at the Editor's discretion.	1500	Yes, (100 words) unstructured	Strictly by invitation of the Editorial Office only. Not more than 25 references

Correspondence (Letter to the Editor)	A response to articles published in the journal, or a statement about an issue of wide interest to the readership. Peer reviewed at the Editor's discretion.	1000	No	Not more than 10 references
Research Brief	Brief observations and research reports in a concise format	3500	Yes (200 words) unstructured	No more than four figures and one table

3. After Acceptance

First Look

After your paper is accepted, your files will be assessed by the editorial office to ensure they are ready for production. You may be contacted if any updates or final files are required. Otherwise, your paper will be sent to the production team.

Wiley Author Services

When an accepted article is received by Wiley's production team, the corresponding author will receive an email asking them to login or register with [Wiley Author Services](#). You will be asked to sign a publication license at this point as well as pay the applicable APC (visit the journal's [APC page](#)).

Copyright and Licensing

The *Journal of Sustainable Agriculture and Environment* is an Open Access journal: authors of accepted papers pay an Article Publication Charge and their papers are published under a Creative Commons license. This journal uses the CC-BY [Creative Commons License](#). Note that [certain funders](#) mandate a particular type of CC license be used.

Please review Wiley's guidelines on sharing your research [here](#). The submitted version of the manuscript, the accepted version, and the published version (Version of Record) can all be deposited on an institutional or other repository of the author's choice without embargo.

Proofs

Authors will receive an e-mail notification with a link and instructions for accessing HTML page proofs online. Authors should also make sure that any renumbered tables, figures, or references match text citations and that figure legends correspond with text citations and actual figures. Proofs must be returned within 48 hours of receipt of the email.

Article Promotion Support

[Wiley Editing Services](#) offers professional video, design, and writing services to create shareable video abstracts, infographics, conference posters, lay summaries, and research news stories for your research – so you can help your research get the attention it deserves.

Access and sharing

When your article is published online:

- You receive an email alert (if requested).
- You can share your published article through social media.
- As the author, you retain free access (after accepting the Terms & Conditions of use, you can view your article).
- The corresponding author and co-authors can nominate up to ten colleagues to receive a publication alert and free online access to your article.

You can now order print copies of your article (instructions are sent at proofing stage).

Now is the time to start promoting your article. Find out how to do that [here](#).

Measuring the impact of your work

Wiley also helps you measure the impact of your research through our specialist partnerships with **Kudos** and **Altmetric**.

Author Name Change Policy

In cases where authors wish to change their name following publication, Wiley will update and republish the paper and redeliver the updated metadata to indexing services. Our editorial and production teams will use discretion in recognizing that name changes may be of a sensitive and private nature for various reasons including (but not limited to) alignment with gender identity, or as a result of marriage, divorce, or religious conversion. Accordingly, to protect the author's privacy, we will not publish a correction notice to the paper, and we will not notify co-authors of the change. Authors should contact the journal's Editorial Office with their name change request.

Correction to Authorship

In accordance with Wiley's **Best Practice Guidelines on Research Integrity and Publishing Ethics** and the **Committee on Publication Ethics'** guidance, the *Journal of Sustainable Agriculture and Environment* will allow authors to correct authorship on a submitted, accepted, or published article if a valid reason exists to do so. All authors – including those to be added or removed – must agree to any proposed change. To request a change to the author list, please complete the **Request for Changes to a Journal Article Author List Form** and contact either the journal's editorial or production office, depending on the status of the article. Authorship changes will not be considered without a fully completed Author Change form. (Correcting the authorship is different from changing an author's name; the relevant policy for that can be found above.)

Graphical Table of Contents

The journal's table of contents will be presented in graphical form with a brief abstract.

The table of contents entry must include the article title, the authors' names (with the corresponding author indicated by an asterisk), no more than 80 words or 3 sentences of text summarizing the key findings presented in the paper and a figure that best represents the scope of the paper.

Table of contents entries should be submitted to Research Exchange as 'Supplementary material for review' during the initial manuscript submission process.

The image supplied should fit within the dimensions of 50mm x 60mm and be fully legible at this size.
